

ALAN TURING

SOLVE IT

A cryptogram puzzle is a cipher with a consistent code: Each letter represents one other letter throughout a message. Finish decrypting the Alan Turing quote below. Keep an eye out for cribs, like one- and two-letter words, double-consonants, etc.

"G Q E H E F O G U P G V P Z N P F J P A
 J X W P G U Q E B B G W B P ,
 G J F E U U X J E B V X W P
 G U J P B B G M P U J ."

Solution:

I F I I T
 T I F ,
 I T T
 I T I T .

Keep track of each letter's cipher here.

A	B	C	D	E	F	G	H	I	J	K	L	M	N	O	P	Q	R	S	T	U	V	W	X	Y	Z
					Q			G											J						

THINK ABOUT IT

Reread the full quotation. Explain in your own words what Alan Turing is saying about intelligence and human nature.
